An aerial photograph of a vast, arid landscape. The ground is parched and cracked, with a network of deep, winding fissures. The color palette is dominated by earthy tones of tan, brown, and muted green. A semi-transparent green rectangular box is centered over the image, containing black text.

The image shows a dense forest landscape after a fire. The ground is covered in dark, charred wood and ash. Numerous trees and shrubs are visible, many of which are blackened and skeletal. Interspersed among the dead vegetation are patches of bright green, low-lying plants that are beginning to grow back, indicating the early stages of ecological recovery. The lighting is bright, casting shadows on the ground.

Who can I talk to about healing?

THANK YOU
